GOVERNMENT OF INDIA

MINISTRY OF AGRICULTURE & FARMERS WELFARE

DEPARTMENT OF AGRICULTURE, COOPERATION & FARMERS WELFARE

PRADHAN MANTRI FASAL BIMA YOJANA (PMFBY)

REVISED OPERATIONAL GUIDELINES

1. OBJECTIVES OF PMFBY

1.1 Pradhan Mantri Fasal Bima Yojana (PMFBY) aims to provide a comprehensive crop insurance solution to protect farmers against financial losses arising from unavoidable natural risks and adverse weather occurrences.

1.2 Objectives include: (i) Supporting sustainable agricultural production by providing financial support to farmers suffering crop loss/damage; (ii) Stabilizing the income of farmers to ensure their continuance in farming; (iii) Encouraging farmers to adopt innovative and modern agricultural practices; (iv) Ensuring flow of credit to the agriculture sector.

2. CROPS COVERED UNDER THE SCHEME

2.1 **Food crops:** Cereals, millets, and pulses (Wheat, Rice, Paddy, Maize, Bajra, Gram/Chana, Arhar, etc.).

2.2 **Oilseeds:** Mustard, Groundnut, Soyabean, Sunflower, Sesame, etc.

2.3 **Annual Commercial / Annual Horticultural crops:** Sugarcane, Cotton, Potato, Onion, Ginger, Chili, and Turmeric, notified by the State Government.

3. COMPREHENSIVE RISK COVERAGE STAGES

PMFBY provides comprehensive risk insurance against non-preventable natural risks from pre-sowing to post-harvest:

Stage 1: Prevented Sowing / Planting Risk: Insured area is prevented from sowing/planting due to deficit rainfall or adverse seasonal conditions. Eligible for claim up to 25% of the sum insured.

Stage 2: Standing Crop Loss (Sowing to Harvesting): Comprehensive risk coverage for yield losses due to non-preventable risks such as drought, dry spells, flood, inundation, wide-spread pests and diseases, landslides, natural fire, lightning, storm, hailstorm, and cyclone.

Stage 3: Post-Harvest Losses: Coverage available for a maximum period of **up to 14 days** from harvesting for crops kept in 'cut and spread' condition in the field for drying against cyclone, cyclonic rains, and unseasonal rains.

Stage 4: Localized Calamities: Loss/damage resulting from occurrence of identified localized risks of hailstorm, landslide, inundation, cloud burst, and natural fire affecting isolated farms in the notified area.

4. FARMER SHARE OF PREMIUM & SUBSIDY STRUCTURE

One of the cornerstone features of PMFBY is the uniform, highly subsidised farmer premium rates. The maximum premium payable by the farmer is as follows:

Season / Crop Category	Crops Included	Max Farmer Premium Rate
Kharif Season	Food & Oilseeds crops (Paddy, Maize, Bajra, Soyabean, etc.)	2.0% of Sum Insured
Rabi Season	Food & Oilseeds crops (Wheat, Mustard, Gram, Barley, etc.)	1.5% of Sum Insured
Commercial / Horticultural	Annual Commercial & Horticultural crops (Sugarcane, Cotton, Potato, etc.)	5.0% of Sum Insured

Premium Subsidy: The difference between the actuarial premium rate and the farmer share is shared **50:50 between Central and State Governments** (90:10 for North Eastern States). There is NO upper cap on government subsidy.

5. CLAIM SETTLEMENT & 72-HOUR LOSS INTIMATION RULE

5.1 **Mandatory 72-Hour Intimation for Localized Calamity:** In the event of loss due to localized calamities (hailstorm, cloudburst, inundation) or post-harvest damage, the insured farmer **MUST notify the loss within 72 hours** of the occurrence of calamity.

5.2 **Channels of Intimation:** Farmers can report loss through: (i) Crop Insurance App (Fasal Bima App), (ii) National Crop Insurance Portal (pmfby.gov.in), (iii) Centralized Kisan Call Centre / PMFBY Toll-Free Number: **14447**, (iv) Nearest Agriculture Department Office, Bank branch, or CSC center.

5.3 **Loss Assessment & Settlement:** A joint committee of Insurance Company and State Agriculture Department carries out loss assessment within 10 days, and compensation is credited directly to the farmer's bank account within 15 days of survey completion.
