SAHYADRI ANALYTICAL FOOD LABORATORY (FICTIONAL - DEMO DOCUMENT)

TEST REPORT

Report No: SAFL-2026-11-0457 Issue date: 2026-11-10

Client: Pune Sauce Works (FAC-PUN), Pune, Maharashtra

SAMPLE DETAILS:

Product: Tomato puree (28 Brix), aseptic drums

Supplier: Valle Rosso Tomato Cooperative

Supplier lot: TOM-2026-041 (received 2026-10-02)

Samples: 5 x 250 g taken 2026-11-07 from retained drums D-07, D-11, D-15, D-19, D-23

RESULTS:

Salmonella spp. (ISO 6579-1): Detected in 25 g - 3 of 5 samples positive

Serotyping: Salmonella Typhimurium confirmed (drums D-11, D-15, D-19)

Enterobacteriaceae (ISO 21528-2): 2.4 x 10^3 cfu/g - exceeds limit of 10 cfu/g

Listeria monocytogenes (ISO 11290-1): Not detected in 25 g

pH: 4.6 (specification <= 4.4) - above limit

CONCLUSION:

Lot TOM-2026-041 is NON-COMPLIANT. Pathogen confirmed positive.

Recommend immediate hold of all remaining stock and a recall assessment of products made with this lot.

METHODS AND CHAIN OF CUSTODY:

Samples received at laboratory 2026-11-07 17:40, temperature 4 C, seals intact.

Enrichment in buffered peptone water, RVS and MKTTn broths; confirmation by serology and PCR.

QUALITY STATEMENT:

Results relate only to the samples tested. Uncertainty of measurement available on request.
